

Clapham Green to Colesden

Local Representative Groups (LRGs) Round #1 Meetings

Tuesday 6 May 2025

Agenda

- 1 Housekeeping
- 2 Actions from the last meeting
- 3 Project updates
- 4 Revised groups
- 5 Terms of Reference & request to join LRG
- 6 NSC summary- Area manager
- 7 Discussion, Q&A

Housekeeping

- In case of a fire, follow the EWR Co team to the muster point
- Please use a name badge
- Before speaking for the first time, please introduce yourself with your full name and who you're representing
- A copy of the slides and notes will be available on the community hub following this meeting

Review of Actions From Previous Meeting

Completed actions

Action ID	Action detail	Outcome / Status
Action 1	EWR Co to consider the possibility of running a session on construction plans and impacts in the coming months.	Due to the early stage of the project this is currently on hold but the request will be re-considered when there is sufficient detail (likely at stat con).
Action 2	EWR Co to consider a further meeting regarding noise impacts and proposed noise mitigation measures with Wyboston, Chawston and Colesden Parish councils.	Due to the early stage of the project this is currently on hold but the request will be re-considered when there is sufficient detail (likely at stat con).

Project Updates

Project Updates

Multi-billion-pound investment secured as Universal theme park and resort set to be built in Bedford, bringing thousands of jobs

- We are engaging with Universal to determine the potential implications of the park for EWR's proposals and for the wider network.
- It has yet to be confirmed what the park/resort may mean for service levels on the MVL or for individual stations.
- We are committed to maintaining close contact with all involved parties including Universal, Network Rail and the Department for Transport to ensure accessibility and connectivity is a core element of the planning process.

Project Updates

Chiltern Railways announced as operator for the first stage of East West Rail.

The Transport Secretary has announced the operator for a new set of rail services along the Oxford-Cambridge Growth Corridor.

- A total of 45 apprentice train drivers have been hired and trained by Chiltern Railways.
- Additional facilities for driver accommodation at Bletchley have been delivered where a new driver depot will be based.
- An additional 30 employees have been hired by Chiltern Railways to support the delivery of the project.

Chiltern Railways will launch services later this year which will connect Oxford, Oxford Parkway, Bicester, Winslow, Bletchley and Milton Keynes Central.

Project Updates – Ground Investigations

- Phase 1 ground investigations for East West Rail started in February and are well underway.
- It's expected to take around four or five months to complete.
- To find out important information about the soil, rock and groundwater; design EWR in a responsible and environmentally sustainable way; and reduce project costs, construction risks and land take.
- Work ranges from boreholes dug using a drilling rig (typically to a depth of 10m) to trial trenches dug using an excavator (typically to a depth of 5m).
- We are keeping MPs, local authorities and parish councils updated about when we will be in their area.
- A poster provides communities with a link to information on our website and contact details for queries.
- We're working hard to make sure any possible disturbance is kept to a minimum and our contractors follow robust health and safety procedures.
- Working hours are 8am to 6pm, Monday to Friday.

Work happening in your area

From February 2025 you may see our contractors in the area as we begin ground investigations for East West Rail (EWR). This work is crucial to help us understand the soil, rock and groundwater below the surface so that we can design the railway in a responsible and environmentally sustainable way.

The team will be adhering to robust health and safety procedures and will work hard to minimise any disruption to communities.

Find out more about the type of work happening at: eastwestrail.co.uk/GI2025

Get in touch

If you have any questions about ground investigations in your area, please contact a member of the EWR team:

Project Updates – Ground Investigations

Non-statutory consultation (NSC) next steps

- Feedback analysis is currently being carried out and being considered as part of design development, where possible.
- A **NSC summary document** is expected to be published mid-May and will provide a summary of how we delivered the consultation, who we heard from and the emerging themes from consultation feedback.
- Outcomes from how we have considered feedback in the design will form part of a **You Said, We Did** report published at statutory consultation.

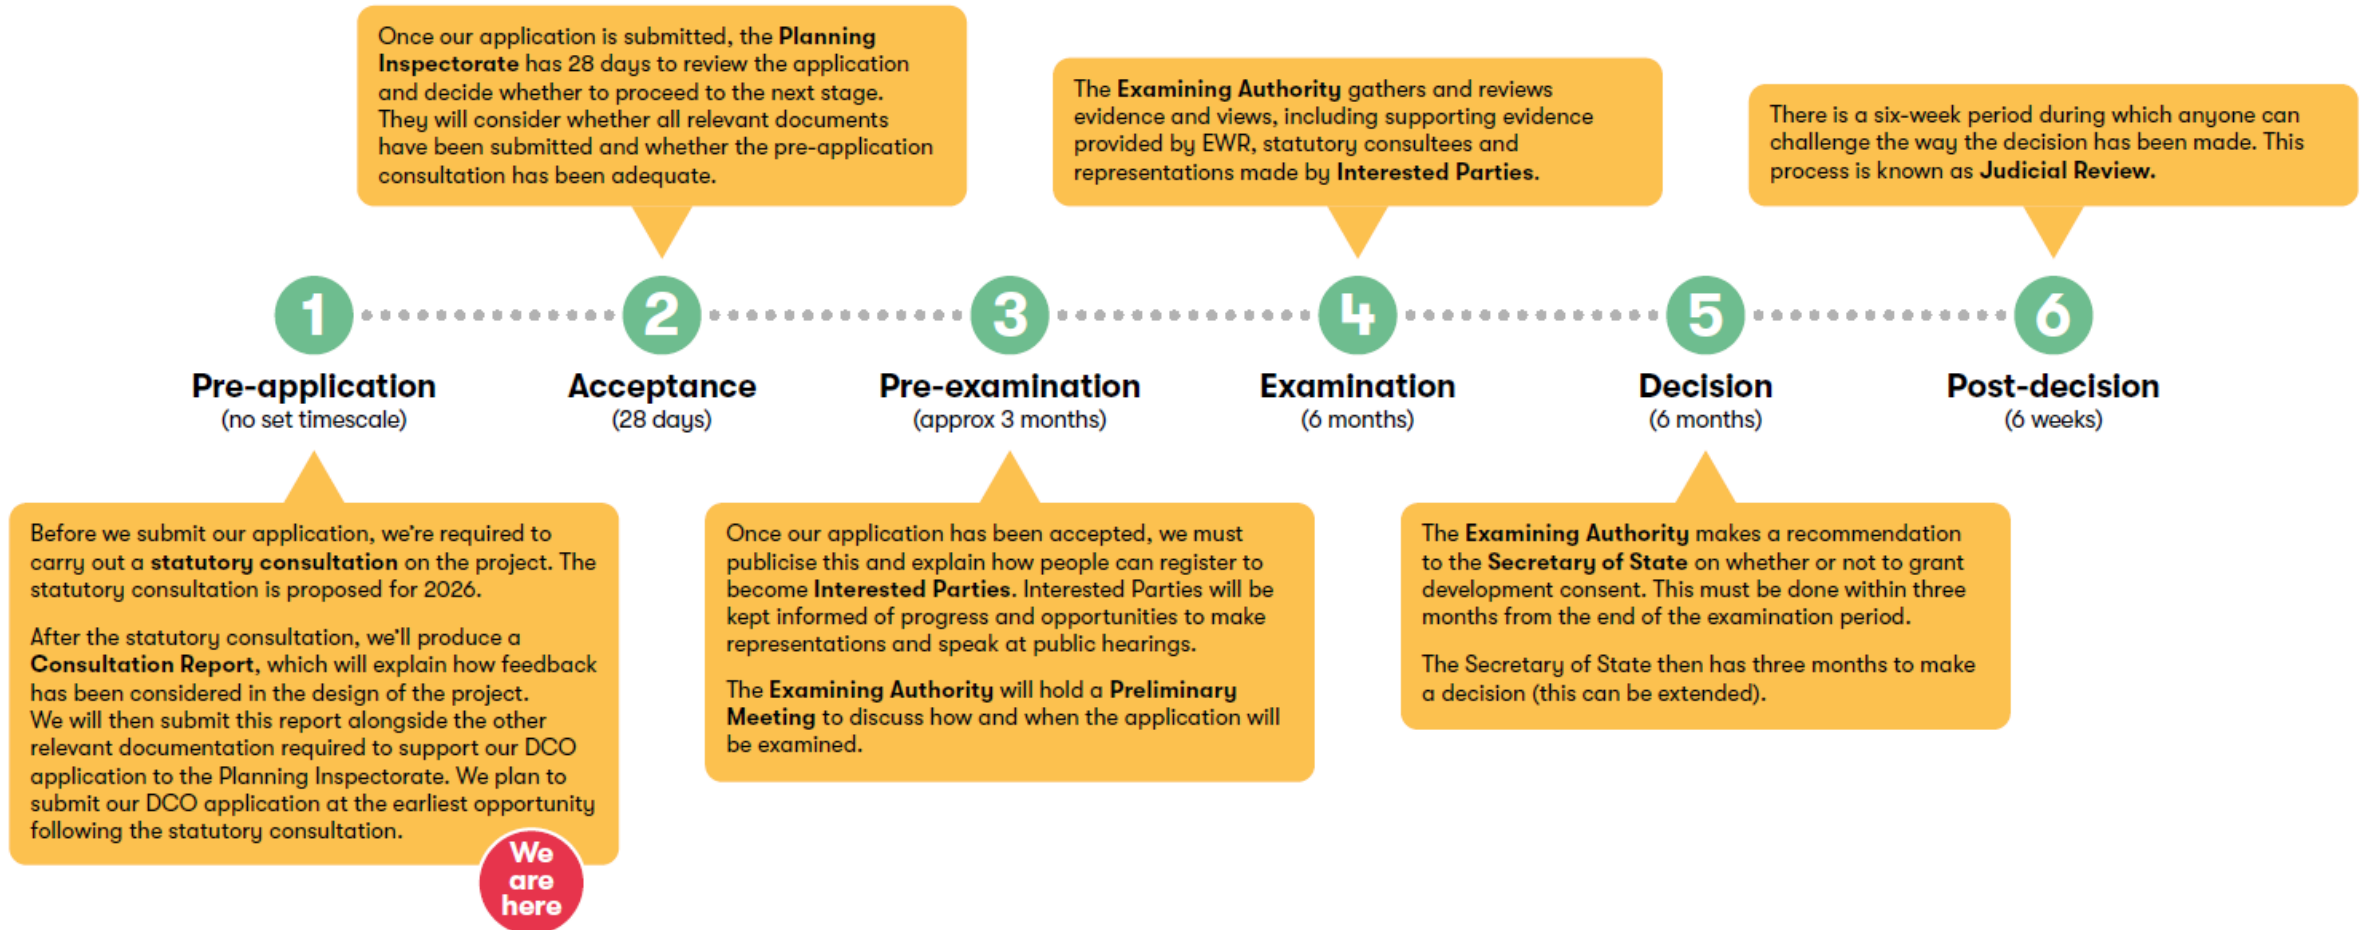

Project Updates – NSC3 Interim Update Document

We will be publishing the Non-Statutory Consultation 3 (NSC3) Interim Update Document in the coming weeks.

- This is a public-facing overview that updates stakeholders and the public about the facts of the consultation, providing a summary of how we delivered the consultation and who we heard from.
- The document is high-level, and it will not discuss outcomes or provide a response to the matters raised. This information will be provided in the You Said, We Did report published at statutory consultation.
- We will be giving you advance notice of the launch date, so you are informed of the update document going public.

The DCO Process: Timeline

Key Principles of the DCO Process

The DCO process is:

- Open and inclusive;
- Allows stakeholders to have their say at every stage;
- Procedurally driven; and
- Largely a written process.
- You can watch our previous deep dive on the DCO process [here](#).

Revised Groups – Clapham Green to Colesden

Revised groups-Clapham Green to Colesden

This area covers Clapham Green to Colesden, and the Group will have the opportunity to discuss the proposals to lay approximately 12km of new railway track as well as enabling embankments, cuttings, bridges and viaducts.

Roads, paths and tracks may require diversions, two passing loops near Colesden are proposed, and flood risk and adaptations to utilities are being managed.

Parishes and wards -Clapham Green to Colesden

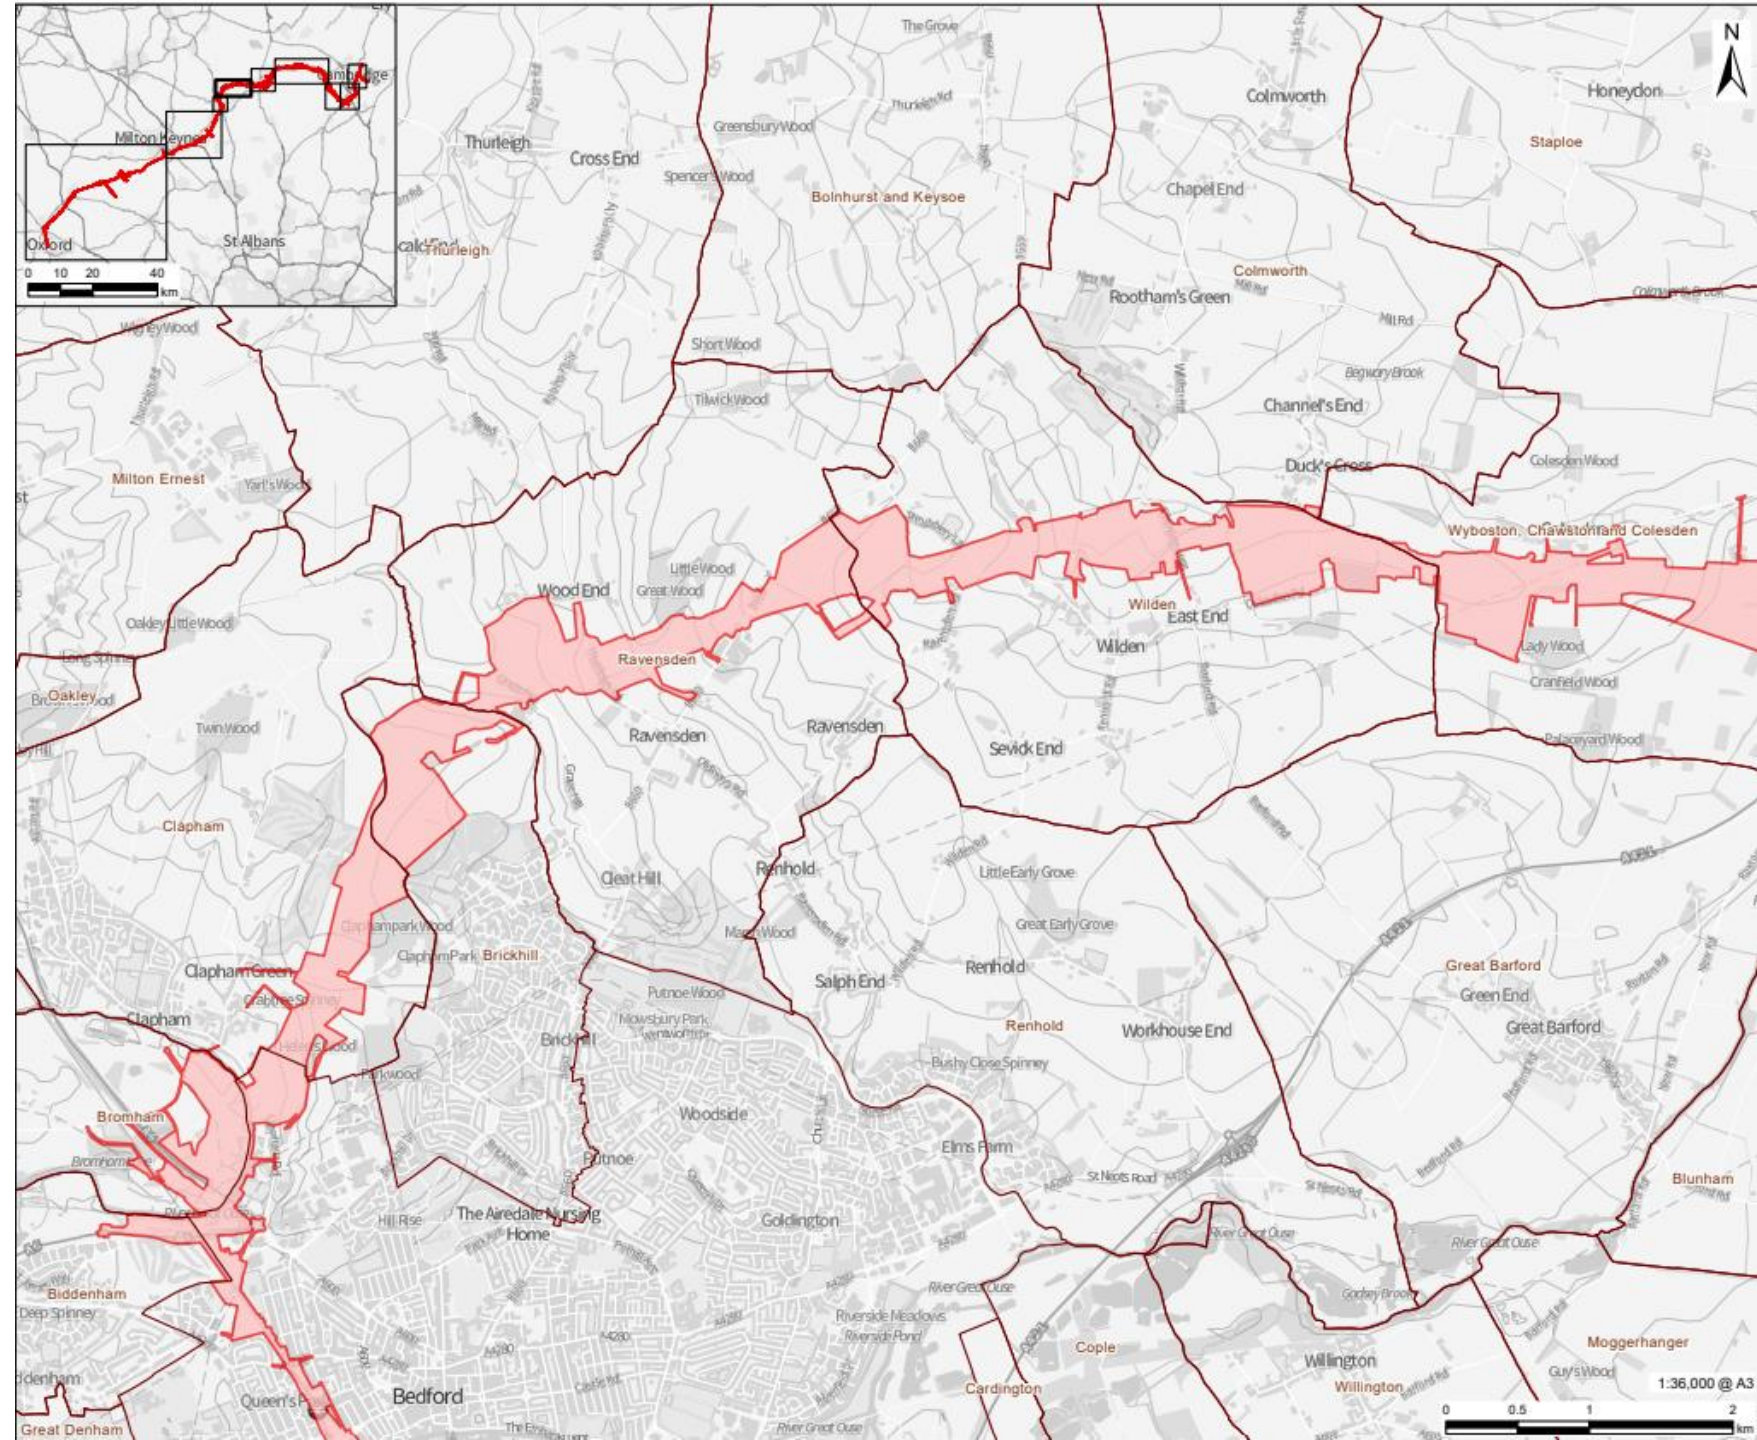

Parishes represented

- Brickhill
- Bromham
- Clapham
- Colmworth
- Ravensden
- Wilden
- Wyboston, Chawston & Colesden

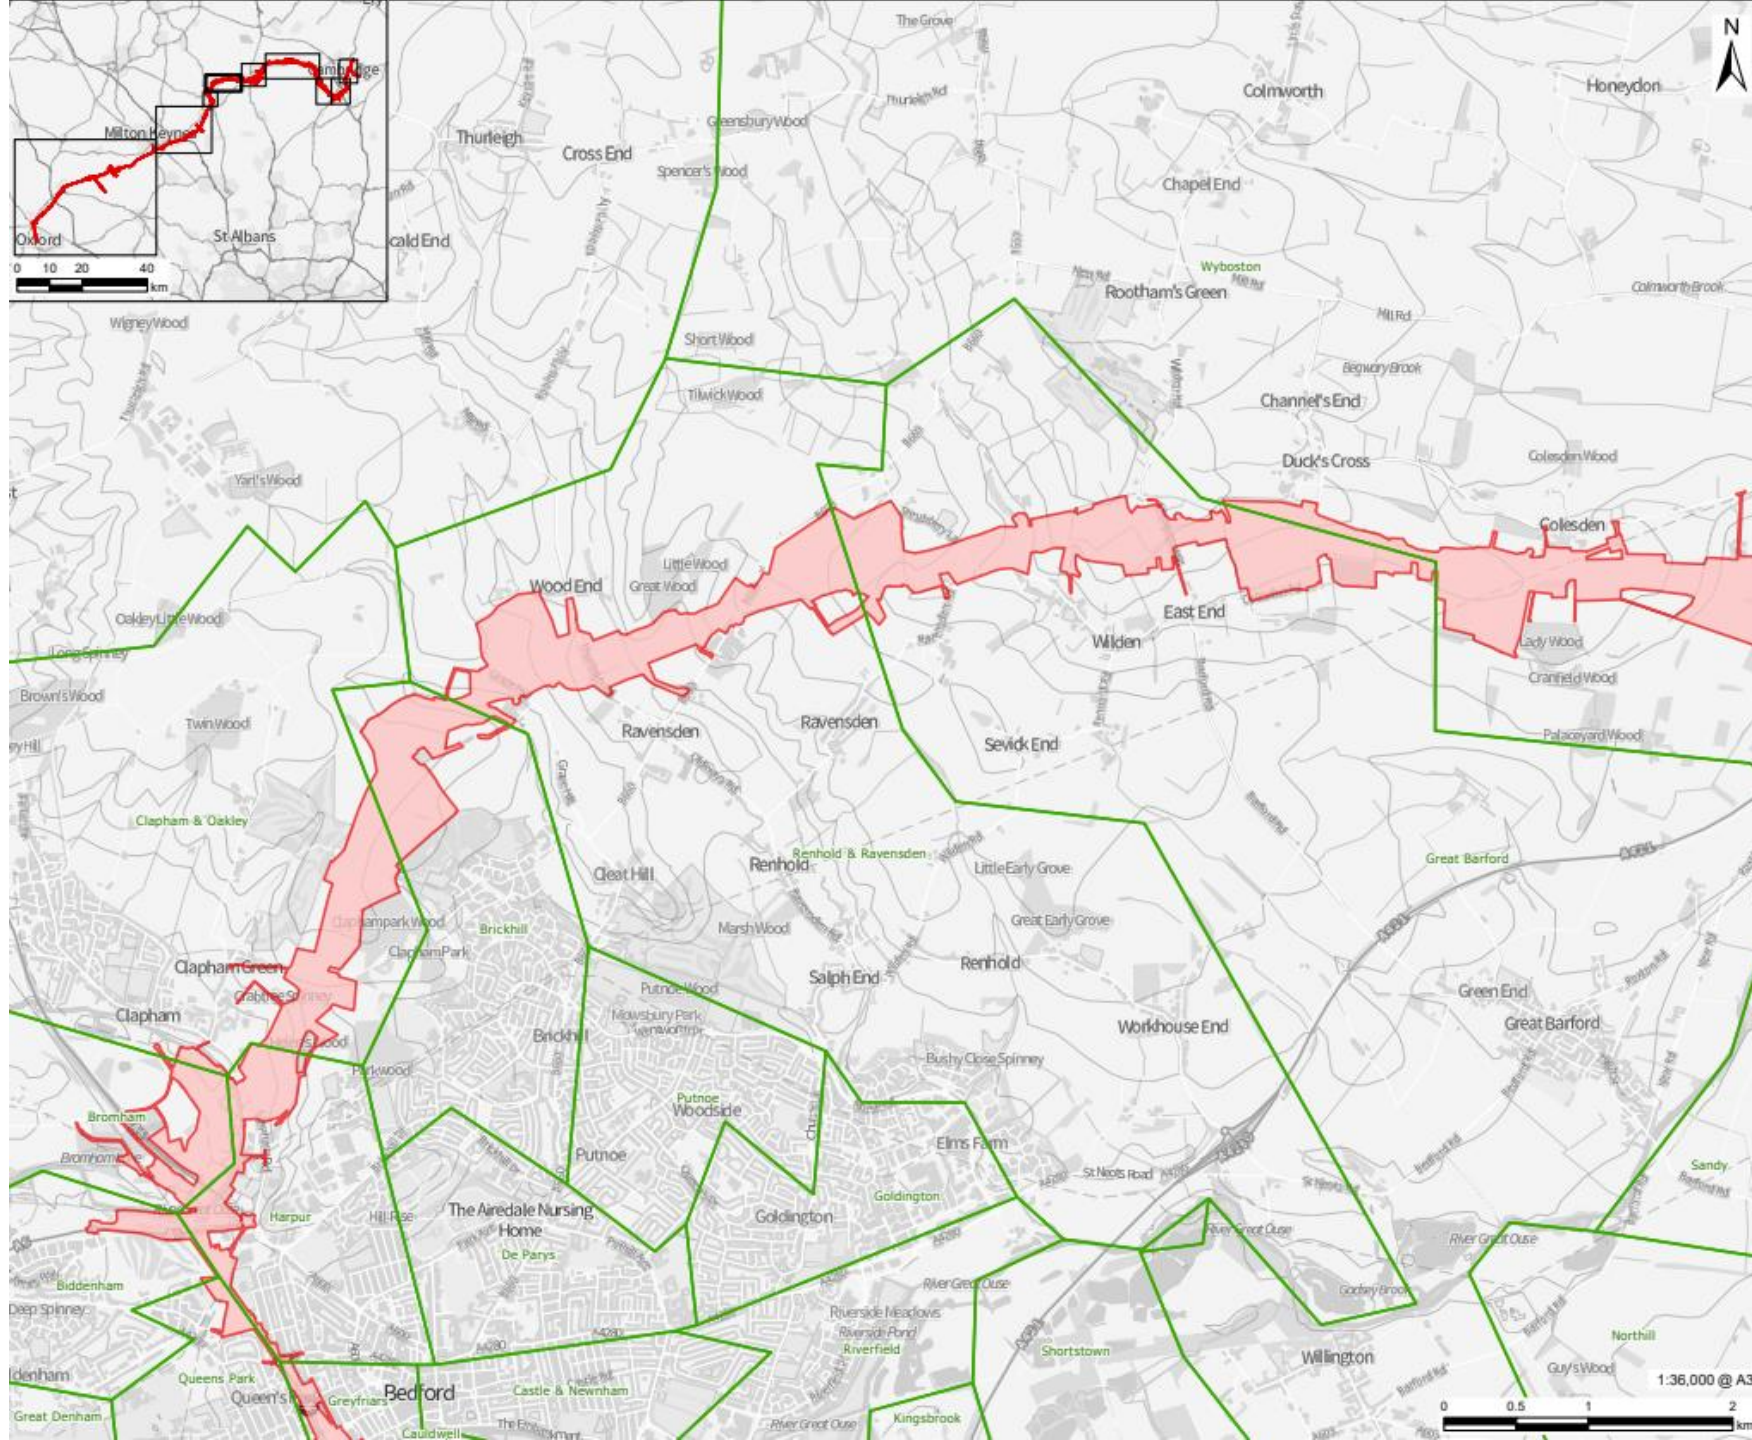

Wards represented

- Brickhill in Bedford Borough Council
- Bromham in Bedford Borough Council
- Clapham & Oakley in Bedford Borough Council
- Great Barford in Bedford Borough Council
- Harpur in Bedford Borough Council
- Renhold & Ravensden in Bedford Borough Council
- Wyboston in Bedford Borough Council

What are Enhanced Local Representative Groups?

- As part of our commitment to effective community engagement and communication, we have recently restructured the LRGs to more closely reflect the section areas presented at the most recent consultation. As a result, there are now Enhanced LRGs and a Community LRG.
- The Enhanced LRGs are made up of those wards and parishes which fall within the red line boundary (the draft Order Limits) and will allow for more focused and effective communication and collaboration between EWR Co and local stakeholders.
- The Group will meet throughout the planning, building, and running of the new railway and will offer an open forum for discussions – a place to share information and have two-way conversations about any issues affecting the local community.
- EWR Co will listen and carefully consider all opinions and as well as answering questions, we will bring any supporting information that will help the conversation.

Who can join this Group?

- Parish and Town Councils – One representative from each Parish or Town Council.
- Local Authority councillors – Representatives of the Wards and Electoral Divisions.
- EWR Co – We will provide relevant specialists and representatives to attend meetings. We will also open and close meetings and ensure they run effectively.
- We will also be keeping the following people informed about the Group and send them the agenda and other supporting materials
 - Members of Parliament (MPs)
 - Leaders of unitary councils/county councils/district councils
 - CEOs of unitary councils/county councils/district councils

How many Local Representative Groups are there?

- There are nine Enhanced Local Representatives Groups across the route, stretching from Oxford to Cambridge. You can find more information about the Clapham Green to Colesden Enhanced LRG Group [here](#), including a map and the Parish and Ward Membership list.

Terms of reference

How often will we meet and through what format?

- The Group will meet four times a year. The frequency of additional meetings will be dependent on the topics and information needed to be discussed.
- Meetings will be held in-person where possible.
- Meetings will start at 5:30pm/6:00pm/7:00pm where possible.
- Dates will avoid public holidays, school holidays and half terms, as well as local elections or Council's meeting dates where possible.
- Meetings will start with standing items followed by more in-depth discussions on selected topics.

Who will manage the Group?

- East West Rail will provide administrative support. This will include organising meetings, providing agendas and materials, as well as compiling all meeting notes.

Is there a code of conduct?

- Yes, it is important that the Group always treat each other with courtesy and respect. We want everyone to be able to speak freely and honestly.
- We encourage all members to disclose any roles, employment, memberships or affiliations to other organisations, charities or groups that could result in a conflict of interest for them.
- Members should not act, in or out of the meetings, in a way which could disrupt the running of the Group— or restrict attendance by any members.
- If anyone does not follow these guidelines, they may be suspended from the Group or removed. This decision would not be taken lightly and would have to be agreed by the Group, or by the agreement of EWR Co.

How will any disputes be resolved?

- If an issue arises resulting in disrespectful behaviour, or if discussions are not making headway, the EWR Co Manager may call for the meeting to move on or end. They will then look to resolve any outstanding issues in another forum.

Where can I find information about the meetings?

- We will keep details of meetings on a dedicated section on our website— [Community Hub](#). There, you will find everything – including agendas, approved meeting notes and presentation materials for this Group and others.

NSC Summary, Discussion, Q&A

Route section 4: Clapham Green to Colesden

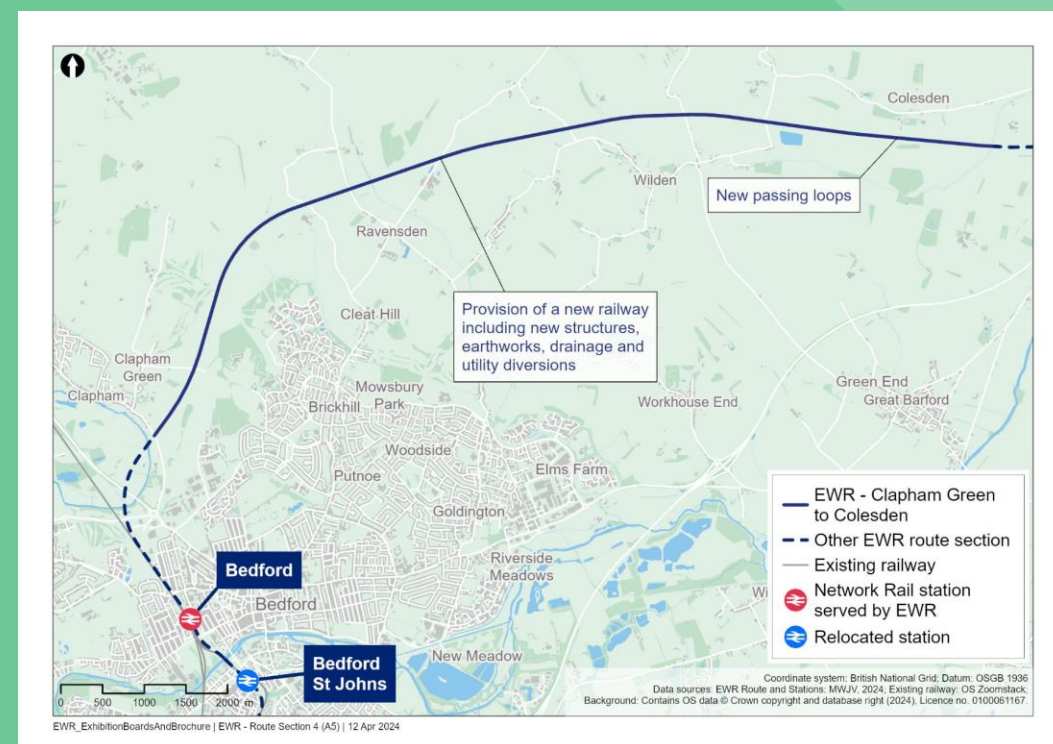

Route section 4: Clapham Green to Colesden

This section of the railway involves the construction of approximately 12km (7miles) of new, twin-track railway between Clapham Green (north of Bedford) and Colesden.

A summary of works being undertaken between Clapham Green and Colesden includes:

- The construction of several embankments, cuttings and bridges/viaducts to maintain an acceptable railway gradient in the area
- The installation of two passing loops near Colesden
- The construction of new bridges to maintain roads and Public Rights of Way

Since the 2021 non-statutory consultation we have moved the proposed alignment of the railway slightly to the north, to increase the distance to properties in Wilden.

Route section 4: Clapham Green to Colesden

Issues currently being considered as part of the design

Example Theme	Example Feedback
Construction noise and vibration: Negative impact	There needs to be consideration given to noise mitigation for those properties positioned close to the site of the viaduct.
Suggest Construction impacts mitigation / design change	Cuttings and sound proofed fencing should be fully utilised.
Environment & sustainability (general): Negative impact / no positive impact	EW R Co needs to safeguard the beauty of an area.
Flood risk: Negative impact	Land drainage during and after construction is of concern and needs to be addressed to prevent flooding.

Issues currently being considered as part of the design

Example Theme	Example Feedback
Operational noise and vibration on local community: Negative impact	Visually acceptable acoustic fencing (or other suitable forms of mitigation) should be introduced to reduce the impacts on residential properties and other sensitive receptors.
PRoWs / footpaths: Negative impact	Maintain and protect existing and future public footpaths.
Suggest Construction impacts mitigation / design change	Construction working hours should be restricted, dust prevention measures implemented, and rules on weight and types of traffic using roads through villages.
Suggest transport mitigation / design change	Double track with passing loops [...] making sure to build any bridges high enough for any future electrification.
